## What do I bring?

### A small taste and some inspiration for your backpack...

#### 1. Camping material

We will camp outside. Inside the farm there's a washable. We will take care of a field-kitchen. So bring a tent, sleeping bag, knife, fork, spoon and plate and all other things you might find necessary to take with you...

#### 2. Timeless

We'll use as less as possible technology and time. So take care you finish all your work at home and leave it there! You might leave your watch, mobiles at home...

#### 3. Your Passion

Certain moments in the flow of the weekend we'll ask you to present a passion of yourself. This can be anything: a story, a hobby, workshop...

#### 4. Creative suitcase

Find an old crazy box and fill it with your dreams, quotes, ideas, objects... Bring it with you... A deeper look into your soul...

## proMayo.be . "Cold head, warm heart"

We are international collective of creative grass-root minded human beings, willing to inspire, train and support people and organisations to think positive, love change and to play with the world around us.

*"Why fight against the world you live in, or get stuck in fears, dogmas or "Yes, but..."? Go out and play!"*

Taking things in own hands and creating the world we want to live in. To do... even if it's not always 'allowed'. Doing things different and looking to things from another perspective. Playing, not being afraid to fail, express yourself, taking initiative, do-it-yourself... **DREAM** about a wonderful world, be creative, wacky or crazy, everything is possible. In minds ideas get born. **DARE** to fail, jump into new things, enjoy change, learn to surf turbulent waters. **DO** the things you want! Take responsibility in your own hands and face your challenges.

*"Live NOW, not in the past, nor the future. Today is a gift, that's why they call it 'present'."*

## Price?

Unfortunately we cannot offer the weekend for free... For the weekend we ask a fee of **50€** (if you're a student or don't have a fixed income, price is **35€**)

This is for the food, lodging, material,... To lower transport costs we invite you to hitchhike or take a bike!
